

Competitive Equity – Baseball Rationale 2021

Two years' worth of data was decided to be the basis for creating a competitive equity format for the CIF baseball playoffs. Unfortunately, with the abbreviated season in 2020, the two most recent full seasons are 2018 and 2019. The information to be used was a combination of rankings points, power points and playoff points. Rankings points were created using the Maxpreps formula ranking of all southern section teams. Power points were created using a tier system that awarded points based on a team's division and tier within that division, and playoff points were added based on performance within the playoffs. For us to arrive at a school's total points it was decided to weight the most recent season heavier than the season from two years ago. The six categories that are totaled to arrive at a school's total point number are 2019 Rankings points, 2019 Power Points, 2019 Playoff Points, 2018 Ranking Points, 2018 Power Points, and 2018 Playoff Points.

Spreadsheet Explanation

Categories:

Ranking Points = Max Preps Rankings at the conclusion of each year.

Power Points = Points earned for each game played through the tier system in CIFSS Home for each school.

Playoff Points = Bonus points earned by each school in the playoffs.

Columns:

C = 2019 Ranking Points (.5 of D)

D = 2019 Ranking Points

E = 2019 Power Points (5x F)

F = 2019 Power Points

G = 2019 Playoff Points (1.5 of H)

H = 2019 Playoff Points

I = 2018 Ranking Points (.25 of J)

J = 2018 Ranking Points

K = 2018 Power Points (2.5x L)

L = 2018 Power Points

M = 2018 Playoff Points (.8 of N)

N = 2018 Playoff Points

O = Total number for each school based on Columns C, E, G, I, K and M (2019 & 2018) points all added together.
